

AMERICAN  
KENNEL CLUB®

8051 Arco Corporate Drive  
Suite 100  
Raleigh, NC 27617-3390  
www.akc.org

DEAR VIRGINIA M ERICKSON & RONALD F ERICKSON,

Congratulations on your new Labrador Retriever and welcome to the world of purebred dogs. Your AKC registration dollars support numerous AKC efforts to benefit dogs and dog owners. By registering your dog with the AKC, you supported valuable programs such as Pet Disaster Relief, the AKC Canine Health Foundation, the AKC Kennel Inspection Program, public education, canine legislation, and DNA parentage verification.

AKC registration provides wonderful opportunities for every purebred dog lover. The AKC Canine Good Citizen® program is an outstanding way to train your dog in basic obedience, valuable for every family. In addition, many dog owners enjoy the thrill of participating in AKC activities, shows and trials throughout the country. I invite you and your dog to get involved with the AKC!

Your registration also includes exclusive health benefits to help keep your new dog safe and healthy. Pet health insurance from AKC Pet Insurance offers affordable, comprehensive coverage and customizable plan options that allow you to build a plan to help meet your individual needs and budget. For more information and to get a quote, visit [www.akcpetinsurance.com](http://www.akcpetinsurance.com) or call 866-725-2747.†

Please note, if you ordered multiple items at the time of registration, they may be mailed separately and should arrive shortly.

All of us want to be responsible dog owners. To help, the AKC offers a wealth of information at [www.akc.org](http://www.akc.org). Our site lists national and local dog clubs and AKC Canine Good Citizen® evaluators. Please visit us online and on Facebook and Twitter. If we can be of further service to you, please contact us by phone at 919-233-9767 or by email at [info@akc.org](mailto:info@akc.org).

Sincerely,

Gina M. DiNardo  
President and Chief Executive Officer

Waiting periods, annual deductible, co-insurance, benefit limits and exclusions may apply. For all terms visit <https://www.akcpetinsurance.com/sample-policies>. ROSEWOODRETRIEVERS@MSN.COM

UKC Admin

Hello VIRGINIA ERICKSON,

Here is your temporary listing number: DESERT HAVEN PHANTOM OF THE PARTY - TL076573

TL purchased on: 11/6/2025

HOW CAN A TL NUMBER BE USED AND HOW LONG IS THIS NUMBER VALID?

Temporary Listing Numbers do not expire. Therefore, this number is valid until the dog has been permanently registered at which time, this TL Number should not be used. TL Numbers may be used to enter a dog in UKC events (excluding Nite Hunts, Beagle Hunts, and Bench Shows). You may enter this dog in as many shows and trials as you wish using this TL number. UKC will keep track of points and qualifying legs earned by your dog during this time.

HOW LONG DO I HAVE TO SEND IN MY REGISTRATION APPLICATION ON MY TL DOG?

Since TL Numbers do not expire, owners may choose when to send in their [registration application](#) without incurring late fees.

HOW DO MY DOG'S WINS TRANSFER FROM A TL NUMBER TO PERMANENT REGISTRATION?

Once your dog is permanently registered with the United Kennel Club, all points and legs earned using your valid TL number will be entered into your dog's permanent UKC records. Any wins, titles earned, Top Ten points or All Star points will not reflect on the dog's record until it is permanently registered. As the dog owner, you are responsible to complete and submit the application for registration along with the proper registration fees.

Visit our website at [www.ukcdogs.com](http://www.ukcdogs.com) to check out any upcoming events in your area.

If we can be of any other assistance, please feel free to contact us at [269-343-9020](tel:269-343-9020) or email [conformation@ukcdogs.com](mailto:conformation@ukcdogs.com) or [performance@ukcdogs.com](mailto:performance@ukcdogs.com).

Enjoy the events and we thank you for your continued support of United Kennel Club!

If you have any questions, please let us know. Thank you, and have a wonderful day!

If responding to this message, please include a copy of all previous correspondence.

## Customer & Pet Information

Registered Name	Desert Haven Phantom Of The Party	Registration #	SS52399001
Breed	Labrador Retriever	Tattoo	-
Sex	Male	Microchip	900263003092082
DOB	Mar 20, 2025	Lab Sample ID	56445579
		AKC Sample ID	40019777
		Report Date	Dec 8, 2025

## Explanation of Results

<b>Normal</b>	A 'Normal' result means that your dog does not have the mutation that causes the associated genetic disease.
<b>Carrier</b>	A 'Carrier' result indicates that your dog has inherited one copy of the mutation that has been reported to cause this genetic disease. Your dog may not be clinically affected by this mutation because two copies of the mutation are usually required to cause disease.
<b>Carrier / At-Risk</b>	A 'Carrier / At-Risk' result indicates that your dog inherited one copy of the mutation that has been reported to cause this genetic disease. Based on the mode of genetic inheritance for this particular disease, inheriting one mutant copy of the gene may result in the disease. Dogs with one copy of the mutation may have a milder phenotype as compared to dogs with two copies of this mutation.
<b>At-Risk / Affected</b>	An 'At-Risk / Affected' result indicates that your dog inherited one or two copies of the mutation that has been reported to cause this genetic disease. Based on the mode of genetic inheritance for this particular disease, inheriting one or two mutant copies of the gene may result in the disease.
<b>No Result</b>	'No Result' indicates that we were unable to obtain a genotype for your dog for this specific disease or trait and does not mean that your dog is a carrier or at-risk for this disease. There are a variety of reasons why a specific test may not provide a reportable result. Unique variations in the genetic code of some individuals may exist and cause certain regions of the genome to not perform properly with a specific test. In addition, suboptimal sampling of the dog's cheek cells could also result in poor sample performance due to inadequate cell counts, bacterial and fungal growth, or the presence of other test inhibitors. Dogs with at least 90% of the test results are determined to be acceptable and reportable. If your dog has an unacceptable level of tests with no results, you will be contacted for a new sample to repeat the testing.

Please review our testing terms and disclaimers regarding your results.

## Breed Profile

Disease Name	Genotype	Interpretation
Centronuclear Myopathy	WT/WT	Normal (Clear)
Exercise-Induced Collapse	WT/WT	Normal (Clear)
Progressive Retinal Atrophy, Progressive Rod-Cone Degeneration	WT/WT	Normal (Clear)

WT: wild type (normal) M: mutant Y: Y chromosome (male)

## Coat Colors & Traits

Trait Name	Genotype	Interpretation
A Locus (Agouti)	a <sup>a</sup> /a	Black and tan carries bicolor/solid
A <sup>s</sup> Locus (Saddle Tan)	N/A <sup>s</sup>	Saddle tan/creeping tan (non saddle tan carrier)
B Locus (Brown)	B/B	Black coat, nose and foot pads (does not carry brown)
B Locus (Brown) - b <sup>a</sup>	0	
B Locus (Brown) - b <sup>c</sup>	0	
B Locus (Brown) - b <sup>d</sup>	0	
B Locus (Brown) - b <sup>h</sup>	0	
B Locus (Brown) - b <sup>e</sup>	0	
B Locus (Brown) - b <sup>s</sup>	0	
Brachycephaly	BR/BR	Likely medium to long muzzle
Chondrodysplasia (CDPA)	cd/cd	No Leg Shortening Associated with CDPA
Co Locus (Cocoa, French Bulldog Type)	CO/CO	Black coat, nose and foot pads (does not carry cocoa)
Cu Locus (Curly Hair)	Cu/Cu	Straight coat
D Locus (Dilute)	D/D	Non-dilute (does not carry dilute)
D Locus (Dilute) - d <sup>1</sup>	0	
D Locus (Dilute) - d <sup>2</sup>	0	
D Locus (Dilute) - d <sup>3</sup>	0	
E Locus	E/e <sup>1</sup>	Black - Carrier (Yellow/Red)
E Locus - E <sup>m</sup> (Melanistic Mask)	0	
E Locus - E <sup>g</sup> (Grizzle, Afghan Hound Type)	0	
E Locus - E <sup>h</sup> (Sable, Cocker Spaniel Type)	0	
E Locus - e <sup>A</sup> (Ancient Red, Spitz and Scent Hound Type)	0	
E Locus - e <sup>1</sup> (Yellow/Red)	1	

E Locus - e <sup>+</sup> (Cream, Australian Cattle Dog Type)	0	
E Locus - e <sup>3</sup> (White, Alaskan and Siberian Husky Type)	0	
H Locus (Harlequin, Great Dane type)	h/h	No harlequin
Hairlessness	Rh/Rh	Coated
Hairlessness (American Hairless Terrier Type) - rh <sup>1</sup>	0	
Hairlessness (Scottish Deerhound Type) - rh <sup>2</sup>	0	
I Locus (Intensity)	I/I	Normal intensity
IC locus (Improper Coat/Furnishings)	IC/IC	No furnishings, improper coat
K Locus (Dominant Black)	K <sup>B</sup> /K <sup>B</sup>	No agouti expression allowed
L Locus (Long Hair/Fluffy)	Sh/Sh	Shorthaired (does not carry long hair)
L Locus (Long Hair/Fluffy) - Lh <sup>1</sup>	0	
L Locus (Long Hair/Fluffy) - Lh <sup>2</sup>	0	
L Locus (Long Hair/Fluffy) - Lh <sup>3</sup>	0	
L Locus (Long Hair/Fluffy) - Lh <sup>4</sup>	0	
M Locus (Merle)	m/m	Non merle
Polydactyly (Common Variant)	pd/pd	Normal (typical) toes (likely no hind dewclaws)
Polydactyly (Great Pyrenees Type)	pd/pd	Normal (typical) toes (likely no double hind dewclaws)
R Locus (Roan/Ticked)	R <sup>ti</sup> /r	Ticked (carries non-roan)
R Locus (Roan/Ticked) - R <sup>ti</sup>	1	
R Locus (Roan/Ticked) - R	0	
S Locus (White Spotting, Parti, or Piebald)	S/S	No white spotting, flash, parti, or piebald
SD Locus (Shedding)	SD/SD	High shedding
Sex Determination - ZFX/Y	X/Y	Male
Social Behavior	M/M, WT/WT	May demonstrate more social behavior
Social Behavior, Variant 1	2	
Social Behavior, Variant 2	0	
T locus (Natural Bobtail)	t/t	Normal tail

Determinants of coat colors and traits are complex. Many of these variants are known and many of the genes screened by AKC DNA interact. In addition, not all the genetic factors that contribute to a dog's coat color and traits are known. Because of the complexities in gene-gene interactions, the coat colors and traits reported in your AKC DNA results may vary from your dog's actual appearance. Individual differences in genes throughout the canine genome, not tested in this genetic screen, may also affect the final coat color or traits seen in your dog.

WT: wild type (normal) M: mutant Y: Y chromosome (male)
